NOTE that all LETU dual credit courses are full University-level courses with equivalent curricula to courses offered to LETU undergraduate students.

The content and expectations are not altered for dual credit students.

LETU's courses are taught from a Biblical worldview. The Christian faith is integrated into all courses. However, in our best efforts to uphold high academic standards for scope and rigor, students will encounter secular ideas as appropriate in collegiate-level education. LETU does not endorse these ideas and attempts to shepherd students through worldly concepts with the truth of Scripture.
